The Heliday

Civic holiday has been gain tum as a day of observance and on Monday a great part of the country marked the holiday. It comes at a time when summer is holiday. It comes at a time when summer is at its height and the people can celebrate in the great outdoors with evary comfort, unless it should be too warm, but on Monday the temperature was ideal and the recent majority of the people book advantage of the day.

This season is ideal for games as bowling, motor boat racing and ball and other events.

This season is ideal for games as bowing, motor boat racing and ball and other sense. In the season was a sense of the season with a sense of the season where a good healthy motion of the way in which Canadian enjoy themselves, for at this time the people enjoy the many natural attractions which the country holds for everyone. The newcomer too soon finds the appeal irrestable.

Sound of Cicadas

Sound of Cicadas
The sighth month in the year has come, those 31 days in which harvest is dominant in the thoughts of a great portion of the people's minds, when one of the peots speaks of the "sub-burnt sicklemen with August weary." The harvesters are one of the most prominent signs of the month as everyone knows.

CITY AND VILLAGE

All night long in the city

The traffic rumbles by,

With neither peace nor pity

For those who slumbering lie.

The sound of car brakes squeaking

Disturbing is to hear.

Disturbing is to hear. The fire trucks' sirens shricking Proclaim disaster near

The city noises never

The city noises never
Come softly to a close.
Man's trade goes on forever.
No quiet night bestows.
But to the little village
Night brings the gift of peace.
The sounds of toil and tillage
Until the morning ceals.

In towns, when sleep is smoothing

The lines of care away.

There comes a music southir

For all who wakeful stay.

Tis not of fearful matters Or dire disaster proof; But just the rain that patters So gently on the roof

I've heard it oh, so often

I've heard it oh, so often And good it was to hear! The bed it seemed to soften, To banish doubt and fear, No music box exquisite Can make so sweet a sound, And sadly they must miss it Whose lives are city bound.

Gangster's Course

The end of a gangster which came re-cently into prominence in the news once again emphasizes the folly of the law breaker. This man considered one of the

breaker. This man considered one of the most daring of his class, came to death by violence and his body was found in a ditch by the law of the jungle.

That is what gangater thinks of gangater and criminal of criminal for there is no loyally between those who flout the law and commit crimes. The reason is very plain crime is Immoral, the very essence of evil content and the section of the content crime of the content crime. and yet some youths and young men and some older ones take that thorny path and yet some youths and young men and some older ones take that thorny path, whose way will probably end in death. The violence the gangster hands out to others he may expect perhaps in even more viol-ent form, if that is possible, from his assoc-

crimes with no extenuating circumstances and without hope.

"The price the criminal pays is the destruction of the best that is in human makeup. What should be used for purposes of betterment is by the criminal defided and discarded as weakness in the foolish notion of those who adopt the course of the gangater life. He puts himself in the place of a himted animal for the hand of society. of a hunted animal for the hand of society is and must be against the criminal and he reacts with more than the fury of a hunted beast for in him is the quintessence of evil; chosen for itself, in preference to that which is true and beautiful and good. A hunted animal is but trying to save himself but a hunted gangster is guided by fiendish institutes.

Surely the knowledge that such is the Surely the knowledge that such is the case should deter young boys from seeing in the gangster a hero. And yet there are those who follow this way that leads down to the grave or at least to perpetual ennity with ordered society and to haunting by endless fears, for the evidioor dare trust no one of his kind. There is the fear of capture, the fear of prison. This cowardios one of his kind. There is the fear of cap-ture, the fear of prison. This cowardice which expresses itself in the wrongdoer's acts is a natural consequence of evil. their work which existed in the days when hard work was in vogue.

This may be so; but we believe that the true workman, no matter in what kind of the work of the his own self-respect and conscience which guide him; his pride in his work is caused by these; he is the master of his work and of his soul, remarks Chatham News.

Sir Harry Lauder, the veteran Scots comedian, has now consented to a film be-ing made depicting his carer on the stage says the Edinburgh Scotsman. Several Hollywood film companies have endeavored for some time to get his per-

mission.

Sir Harry will travel to America next year to supervise the script and the selec-tion of an actor to portray him in the film.

According to Sir Harry, the film must be made in technicolor, and some of the shots will be made in Scotland.

Eggs are going up in price again. Even the hens are getting hard-boiled, says Hamilton Spectator.

HIST FOLKS By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest) MAN'S NEEDS

Has mother tried to let you know
That man is prey to mood and whim,
And after marriage he will go
Where you cannot accompany him?
You'll often see him pack his grip
To take a weekend fishing trip.

Though constant unto you he'll stay, There is so much sman enjoys.
There is so much sman enjoys.
When autumn comes you'll hear him say
"I'm going hunting with the boys."
However great his need for you,
You'll learn he needs his comrades, too.

He'll wander off, but he depends Off you always to understand When he is with his business frien

That he has great affairs on hand. You'll often see him slip away To share the games men like to play.

If this you know, then you are wise.
Your love should last till life shall closs
You won't be taken by surprise.
When after deer or ducks he goes.
It seems that men are born to care
For joys their wives can seldom share.

THE CASE OF THE MISSING CASES

A woman traveller reported the loss of two grips containing \$150,000 worth of furs and gems. — News Item.

Some losses to us all occur. But when I read the morning news, Two cases of expensive fur Are treasures I shall never lose. Thieves; when I have to take a trip There'll be no jewels in my grip

A man of simplest tastes am I.

My trinkets would not tempt to crir
He who to steal my bag would try
Would, if he got it, waste his time;
For all he'd find when opening it

Would, it he got it, waste his time, for all he'd find when opening it would be a shirt and shaving lit.
Would be a shirt and shaving lit.
The cares of those who mech possess—will never apoli the day for me.
No thief can steal my happiness Tor what within my asse may be. The potter carrying my grip
Gets all it's worth — a quarter tip.

Griefs there are that all must bear. But when I travel, this I find:
Since I own little that is rare,
No thief can steal my peace of mind. Whatever loss to me occurs,
"Twill never be of gems and furs.

CALVERT 1622 Famous Families YOUNG 1799

Distinguished English Statesman and Secretary of State to King James I, Calvert, head of the famous Calvert family, founded pioneer colonies in Newfoundland and Maryland early in the 17th Century.

Calvert and his descendants encouraged their settlers to clear and cultivate their fand. The Calvert family also introduced principles of freedom and tolerance, hitherto unknown in the New World. These Calvert ideals were perpetuated down through the succeeding generations of the Calvert family.

The family is the corner-stone upon which great nations are built. Let each of us promote within the great Canadian family, the same concepts of freedom and tolerance pioneered by the Calvert family over three hundred years ago:

WORRIER.

Used to think when they were small, By and by when they had grown, I'd be through with one and all Of the worries I had known. "When they're strong enough," I'd say, "We can turn them out to play."

But when they were seven and eight, Blcycles they begged to ride. Fancying the danger great, Worry never left my side. Later (that's how youngesters are) Came the wish to drive the car.

"Well," said I, "the day will come When no more we'll have to frot.

Fear will be less troublesome
When responsible they get."
Many a night I woke afraid
When too late away they stayed.

Thought it ended when they'd wed
And came children of their own.
But there seems no end to dread.
All the fears I funcied flown
Have returned. I worry still
Every time a grandchild's ill.

Every rival that he saw?

Tribe 'gainst tribe! How did it start? Those gainst triper how one it sear Who, inspired by just and greed stirred to rage the human heart Over difference of creed?

Who began the endiess strife That has spoiled the joy of life?

"All men equal born," we say,
Not of skill or strength or wit,
But with right to live and pray
As the humblest may think fit.
Why not let old hatreds cease?
Why not learn to live in peace?

"But I de leve you, dear—I just can't give you my undivided attention right new?"

Handling U.S. Currency In The Course of Business

Many goods and services securable only in the United States are essential to the maintenance of Canadian industry and the high level of employment.

All the U.S. dollars spent in Canada by U.S. tourists and business visitore are needed for these essential purchases.

To ensure that these tourist dollars are made available for this purposes, the Foreign Exchange Control regulations require that merchants, hotel keepers, service stations and all others must turn in whatever U.S. currency they receive to their banks.

F.E.C.B. Regulations You Should Know

- You may accept U.S. currency from anyone who tenders it, either in payment for purchases or for exchange into Canadian currency at par.
- U.S. currency in payment of purchases.

 3. You must NOT pay out U.S. currency to anyone in exchange for Canadian curre
- 4. You must not pay out U.S. currency in change to a Canadian resident, even though the latter has tendered U.S. currency in payment of a purchase.

Does Not Delay Normal Ripening

PARMONE does not delay normal ripening, hence fruit should not be left on the trees beyond the proper picking stage. With most varieties, a single application of PARMONE properly timed is usually sufficient.

PARMONE has been thoroughly tested by leading borti-culturists in Maritime and Ontario apple orchards, and has amply demonstrated its effectiveness. This -year, insure better fruit by spraying with PARMONE as soon as dropping begins.

Co-operation Appreciated

Co-operation and assistance and support from many quarters helped to make the 1948 Belleville Fair an outstanding success. The words of appreciation to the various or ganisations, municipal bodies and societies many factors have been at work in building up this fine agricultural, industrial and mer-cantile structure which the fair has come to

A pleaking fact is not only the number of elements at work but the wholehearted sup-port which each individually and unitedly gave towards the attainment of the fine rec-ord established by the exhibition.

banking system

CANADA has a banking system which, for efficiency and dependability, is unsurpassed in the world. Competitive, flexible, adaptable to the changing needs of the country, it serves Canada's producers, her industries, her b traders-and it serves your personal needs, too.

No customer has to fear for the privacy of his regular banking transactions. This privacy is completely free of political pressures or considerations-it is rooted in Canadian banking practice and tradition.

Contrast this Canadian way with conditions in bank is a political tool, every banker a State official! State monopoly of banking, proposed by Socialists here; would fasten the Marxist foreign pattern on you:

THE AUSTIN IS HERE!

Do You Know ...

That with a little simple arithmetic we can prove to you that the AUSTIN CAR can save you \$200.00 in one summer's driving and still give you all and every comfort of the most expensive automobile!

So.

If you are thinking of buying a car why not first come down and see this new sensation in motoring and drive it to see for yourself that we are not exaggerating the wonderful riding qualities it has. It comfortably seats five passengers with all the styling of a limousine.

What Air Lift Means

The cargoes borne by air by American lanes into the blockaded city of Berlin is as pointed out in the New York Times a tribute to the "endurance, morale and sheer grit of the air personnel. Long stretches of hours in these transports given by the air cresw and the maintenance personnel have continued this lifeline of food and fuel into the beleaguered city. Maintenance crews the food and fuel flying. The Amerikeep the food and tree trying, the samer-cans, it is pointed out, should borrow from the United States Navy available Martin Mars flying boats with their huge Martin Mars Hying boats with their huge pay load capacity, and make use of the Berlin Lake as the British have done to keep up the air movement. Referring to American planes the Times

ndicates that the emergency in Berlin "has emonstrated the weakness of our (the U.S.) Air Force in point of transport plane The current potential of the Military Air Transport Service and the Navy's Fleet only about one eighth of the minimu strength, which Major-General Lauren Kuter informed Congress he ic Support Wings combined represents strength, which hapor-deneral Laurence Kuiter informed Congress he would require in the event of an emergency.

Single Section of the Control of the The Big-horn has been hunted out of much of its former range in the United States. In Canada too, the Rocky Mountain Sheep is decreasing because of over-hunting and outright poaching; a set of its magnificent horns is a prized trophy. If we in Canada are to preserve this stately "sentinel of the rimrock" we must do all we can to see that conservation measures are strictly observed. The Carolina Paroquet was slaugh

tered just for its brightly coloured feathers. It is now extinct, a bitter lesson to us to preserve what we can of our vanishing wildlife.

BIRTHDAY CAKE

One candle first, and down the years Always an added one appears, Aflame with light and love, to show How swiftly twelve months come and or

Of all the things that fond hands bake, The lovellest is a birthday cake, Brought in with love accompanying it, And eyes as bright as candles lit.

The lights dimmed, and in the glood The cake is carried to the room, A bit of glory to behold, Which tells the joy of growing old.

Some think 'tis wrong with candle glow To mark the years that come and go, But there's no gift that love can make More rapturous than a birthday cake.

That with a little simple arithmetic we can prove to you that the AUSTIN CAR can save you \$200.00 in one summer's driving and still give you all and every comfort of the most expensive automobile!

So ..

If you are thinking of buying a car why not first come down and see this new sensation in motoring and drive it to see for yourself that we are not exaggerating the wonderful riding qualities it has. It comfortably seats five passengers with all the styling of a limousine.

Garbo

There is a report that Greta Garbo is looking over scripts with the possibility of entering films again, says the Woodstock Sentinel-Review, which calls her the greatest screen actress in the young industry's history. What a thrill there was when a Garbo picture was shown in the days of

Garbo picture was ahown in the days of tract time! 7

"She is middle-aged now and little more than a name to the younger more-goers, than a name to the younger more that which transforms a competent performer into an outstanding artist, a quality, which, except in athletes, age cannot impair. Bernhard and Duse had it, and age or anything else."

News that Garbo was about to create a new film would be news, not only to the older morte-goers but to the younger fre-docter morte-goers but to the younger fre-had the privilege of seeing the Garbo in action.

Those who were among the Garbo fans in the movie era in which she starred would no doubt refresh their acquaintance with the tall Swedish movie star should she come before the movie cameras again to dazzle and thrill the motion picture world.

Westerns

The world of the Westerns is a world of magnificent simplicity. In that far country the good are good, the bad are very bad, the

Ability to Work

Ability to Work
Industrial experience during the war
showed that properly trained women are
able to perform almost all types of work
that do not involve heavy physical labor.
Thus, the War Almapower Commission in
the ULSA. found that only 331 operations
out of 1900 in 1 key industries were unit
for women. There is no conclusive evidence
pointing to any market ability to perform
mechanical work, says Industrial Health

At a Picnic

At a Picnie.

People are inclined to let their hair down and torget their dignly at a picnie. For instance, the woman who likes to think of herself as pleasingly plump in the drawing room quite offern has no hedstallon in entering what is termed "the fast ladies' race" at the institute pienle. That same woman might laughingly stand under a tree and let low men walk around her with a tape on her face when the judges decided that the hand the higgest walfilles measurement. You can get away with anything at a plente. — from guessing a middle-aged wopicnic — from guessing a middle-aged wo man's age to having her stand on a chair and call "Willie" to dinner, say Stratford Beacon Herald.

OLD FOGEY

They say to let the baby cry, They say to let the bady cry, But when she does, I wonder why. There is a difference, they explain, Twixt temper and the cry of pain. But still this always bothers me: How do they know which it can be?

There's many a night I can recall I rocked her dad when he was small. I'd swear, a thousand times or mbre With him, in arms, I walked the floo And when at last he fell asieep.

Tip-toe unto my bed I'd creep.

And was I foolish? Who can say? That babe is six feet tall today To guess, I'm sure we didn't try, Did pain or temper make him cry. Hearing him, out of bed I'd spring, Sure that he needed comforting.

If I suggest it's pain, they say
It's temper that is on display;
But when I sak them how they know,
They never have the proof to show,
'Old Fogey-Grandpa!" they reply,
'Who hates to let a baby cry."

"We've always loved keeping your children, Ethel, so we wandered if you'd mind..."

Even the bast noise that will be made nied with dyna-mite or its equivalent, are formed by power drills, speedily and economically. Aside from the men who manipulate the machinery it appears that only a small fraction of the work on highway construction is done by men wielding

All this is, of course, as it should be. Machines have been developed to do much of the work which must be done hurriedly and at the least cost possible. Workers have more leisure to enjoy home life or other social activities. We imagine they are no less tired at the end of a day's work after handling the levers of a power shovel or the wheel of a heavy truck than were those men of former days who accomplished their work by heavy manual labor.

accompusated their work by neavy manual sabor.

His when we recall the tremendous projects of earlier
centuries, and in various lands of the world, that one
cannot help but be appalled at the labor and suffering that
must have gone into the construction of these projects.

The Great Wall of China approximately 1,500 miles long, The treat want or thins approximately 1,000 mines unit, the Egyptian Fyramids and temples, the Appian Way in Italy, down to the Buse Canais of a later day. Even today with all our modern machinery those would have been giant construction projects but in those days practically everything was done by hand. The marvel of the thing was that they were ever accomplished at all with the crud tools at the disposal of the workmen most of whom were

and so we return to our highway and drive along the analyse portion smoothly and speedily, with a grateful thought to those men of ingenious mind who, by their development of labor-saving machines, have made it possible for those of this modern age to travel all over the contract of the saving machines and the saving of th country on business and pleasure on a magic carpet which

Shooting the Chute
To talk about being born thirty years to soon stabs us
agely when we read about the Farm of Tomorrow. That's the farm for us.

That's the farm for us.

With an almost pathological inability to understand
why aclence is so singardly we read of how the University
of Wisconsin has set up an electrically-operated barnyard
that just needs the pushing of a button to set everything in motion — including the farmer. Why aren't they in pro-duction?

For instance, cow stalls are kept clean by paddles on a moving chain that sweep the gutters. When the cow needs food, slage is brought down through an electric suction chute to a feed cart. The cart is pushed in front of the cow,

chute to a feed eart. The eart is pushed in front of the cow, measures the feed and throws it in the imanger.

A foot-operated lever opens doors into the milk house so the farmer can enter it with full milk palls in both

in the hay mow, warm dry air from a ventilating fan is forced through green hay for curing.

There is only one consolation in pondering on that happy picture, and that is that every one will need to be something of a super-electrician or face the danger of con-tinuous humiliation. For instance, it wires get crossed and timotos numination, for instance, it wires get crossed and the paddies sweep the farmer into the gutter and the doors alam in his wife's face or one of his children happens to be forced through the green hay for curing by an electrical lain, diemetic harmony would be somewhat strained. And if he has to call a service man every time the suction chute pulls up a hen instead of silage — only to be told that he pushed the wrong button — the farmer might well think ack to a nostalgic past.—Hamilton Spectator,
